Parallel Workshop on Green Architecture

- explores approaches and possible solutions for maximising environmental and climate ambition through the range of interventions Member States are planning to use within their CSPs

The new Green architecture of the CAP

Networks' work on green themes

- Information activities on new interventions under green architecture (Workshops, lectures, conferences, seminars..)
- Thematic Working Groups
- Video Blog (Vlog) series featuring farmers who are participating in Agri-Environmental themed EIP-AGRI Operational Group projects
- Good practices e.g. on organic farming, circular economy etc.
- Supporting creation of local water partnerships
- Coaching & training e.g. biodiversity
- Organising study tours
- Green LEADER exhibition
- Many other activities....

Participatory Assignment

- ✓ **During lunch break, meet colleagues from your MS attending the Green Architecture Workshop and discuss together:**

What are the key green issues/challenges in your country?

What are the ways of future cooperation on green themes in your country?

THANK YOU FOR YOUR ATTENTION

NRRNMeeting
