

**European Rural Networks'
Steering Group**

Rural Networks self-assessment 2019

Giuliana Keller – DG AGRI

**11th Meeting
Brussels – 13 May 2019**

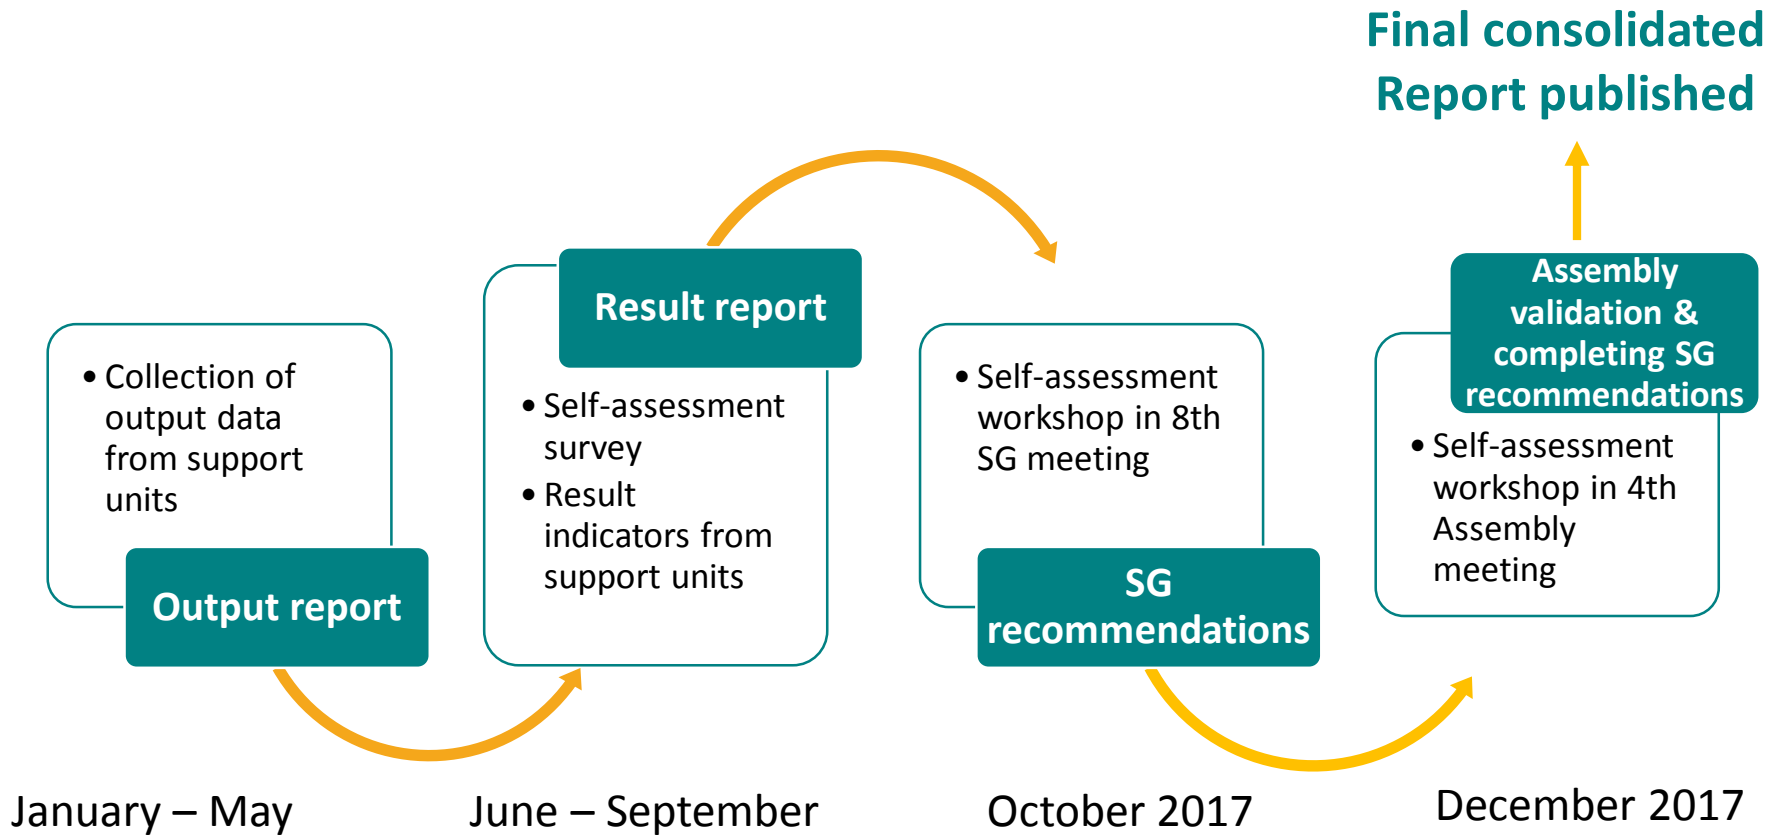

#RNSteeringGroup

EU RN self-assessment 2019 framework

- The Assembly agreed last December to repeat the self-assessment exercise in 2019 but with a lighter approach
- The RN Strategic Framework as agreed by the Assembly remains the same (objectives and indicators)
- How to streamline the process?

RN self-assessment process 2017

Changes proposed for 2019 RN self-assessment process

1. The output and result indicators could be collected in parallel with the survey
2. Some indicators could be discarded
3. The survey questionnaire will contain less questions than in previous exercise
4. The first findings on output AND result indicators & survey replies could be presented together at SG in October (TBC)

Changes proposed for 2019 survey questionnaire

- ✓ The questions have been reduced from 22 to 11:
 - ✓ Some have been deleted (too complicated to reply)
 - ✓ Some have been merged (very similar to each other)
 - ✓ The first question has been expanded with qualifying elements

2019 Self-assessment indicative time-line proposed

May 2019

questionnaire finalised

By mid-June 2019

launch of the survey opened until
end of July

12th Steering Group
21/10/2019

presentation of first findings/draft report on
the output and results of the EU RN activities
(TBC)

6th Assembly
16/12/2019

presentation of the key findings and the SG
recommendations to the Assembly

Thank you!
