Digitalisation in rural areas

Digitalisation in rural areas

Which outputs at the Evaluation Knowledge Bank can be useful for the evaluation of digitalisation?

METHODOLOGIES

DESIRA - Modelling
broadband access impact
on the economic growth at
NUTS 3 level

Methodology for
impact evaluation
of digitalisation

TOOLS

DESIRA - Toolkit of digital
tools and their potential socio-
economic impacts

Outputs: METHODOLOGIES

DESIRA - Modelling broadband access impact on the economic growth at NUTS 3 level

Potential use in evaluation of the CAP

- *A quantitative model for assessing the impact of broadband access to regional economic growth.*
- *Useful for assessing the effects of interventions that aim to increase the digitalisation of rural areas, in particular, the effects on economic growth.*
- *Works with data at NUTS3 level that was previously missing for analysing broadband access.*

DESIRA – Methodology for impact evaluation of digitalisation

- *A qualitative method based on the creation of Living Labs.*
- *Useful to assess the impacts of digitalisation on process like supply chain management.*
- *Method may be used to assess (qualitatively) the links between digitalisation and the Sustainable Development Goals.*

Digitalisation in rural areas

Relevant CAP Objective:

(H) Knowledge, innovation and digitalisation in agriculture and rural areas

Outputs: TOOLS

DESIRA - Inventory of digital tools and their potential socio-economic impacts

Potential use in evaluation of the CAP

- *Digital tools providing data for monitoring and evaluation, especially for climate and environment.*
- *Useful for understanding the effects of measures related to the digitalisation of agriculture, forestry and rural areas.*

Rural Voices report

The 'Rural Voices' report provides a qualitative analysis of the findings from stakeholder workshops contributing to the long-term vision for rural areas.

This ENRD report records the hopes and dreams of more than 300 rural citizens from different EU countries who participated in a series of workshops aimed at encouraging rural citizens to reflect on the social, economic, and environmental conditions of their own rural area and how it might change over the next 20 years, what developments they would like to see and the conditions and policies needed to reach their future vision.

Click on a country flag to connect with rural Europe

Insights into various outputs developed in initiatives and projects at the EU and Member States levels concerning data infrastructures and data use.

A quick guide on potential use, showing how these outputs could be used for monitoring and evaluation of the CAP.
